3. On Monday I visited [REDACTED] Executive Secretary, CS Historical Board, to talk about our interest in some of the historical studies which have been written for the CS. After listening to [REDACTED] description of the status of the program and some of the obstacles he faces in his new job, I believe we will be lucky to obtain a few of these papers from the area divisions and senior staffs concerned.

AGENT AND LIAISON TRAINING BRANCH

7. Four programs involving six trainees were conducted, all in Washington.

8. The original starting dates for three TDY training programs in the Latin America area have been delayed because of the temporary restrictions on travel and pouch traffic.

STAFF TRAINING BRANCH

9. The USAF Major General from TAC did not arrive at Headquarters via helicopter to attend a one-day session of Project USEFUL as originally planned. It seems that the General's boss needed him at Langley AFB in case the USAF would be called upon to tame the Palestine guerrillas.
